

CUNY Design Project

Stage 3: Homepage

The wireframes below show the content of the homepage and the layout in web and mobile viewports.

REQUIREMENTS

- The homepage must share the same header, navigation, footer and overall design as all other pages in this website.
- Design must adapt to different screen sizes.

- Include all content in the above wireframes.
- Use CSS grid to create the layout.
- HTML code must be validated and correct.
- All styling must be achieved with CSS.
